The Value of Ultrasound in the Evaluation of Head and Neck Neoplasms

Daniel M. Alonzo

The Medical City | Philippines

The incorporation of ultrasound in the practice of Otolaryngology-Head and Neck Surgery has been gaining more acceptance as we become more aware of its benefits not only in the evaluation but also the management of benign and malignant tumors of the head and neck. This session will highlight our clinical experience in the use of ultrasound in various diagnostic and therapeutic settings. Appropriate ultrasound fundamentals will also be included.
